

FOOD HANDLING

From field to warehouse to market, Cascade attachments are there every step of the way.

Lift truck attachments for all your food handling needs.

Whether your business is fresh goods or frozen; boxes, bags or bottles... Cascade can handle it.

Cascade's extensive line of products for the food industry makes your food handling processes easier. From cold storage options to specialized attachments that handle warm bakery goods, we have the solution for you.

Cascade Layer Pickers speed up and improve warehousing and logistics abilities allowing you to set new benchmarks for efficiency. Multiple Load Handlers will revolutionize the way you work with the ability to move up to six loads at a time. Push/Pulls save money by shipping, receiving and warehousing loads on less expensive slipsheets rather than pallets. Carton Clamps improve warehouse space utilization and allow for palletless handling. Let our mobile weighing solutions save you both time and money as our intelligently designed iForks weigh your product as you move it.

Cascade products are durable, dependable and are made to stand the test of time.

Layer Pickers

Food warehouses and distribution facilities can benefit from the speed and versatility of the Layer Picker. When building mixed load pallets, the Cascade Layer Picker handles single or multiple layers of both canned and bottled product, eliminating costly manual labor.

Multiple Load Handlers

Use the same lift truck to handle either single or multiple loads. These highly versatile attachments allow you to achieve the productivity gains of multiple load handling without sacrificing the ability to handle single pallets. Forks are hydraulically positioned for fast and efficient material handling.

Push/Pulls

Push/Pulls allow you to ship, receive and warehouse unit loads on inexpensive slip sheets rather than pallets. Using slip sheets eliminates the cost of pallet purchase, maintenance, disposal and storage while increasing cube utilization.

Carton Clamps

Carton Clamps allow palletless handling, which saves money on pallet purchasing, maintenance, shipping and storage. Also improves warehouse space utilization.

Produce Handlers

The Produce Handler reduces the number of trips that are needed to load a truck by a third, allowing you to move more loads faster, minimize damage and stay competitive. Also helps your organization stay green by the realized energy savings.

iForks Pro

Effective on practically any lift truck with an ISO hook-on carriage. These unique and innovative forks let you weigh your product as you lift it. Being wireless, the system can be installed onto any forklift in a matter of minutes.

Whatever the application, we can handle it.

Rotators

Add 360° revolving motion, in both directions, to truck forks. Used for load inverting and dumping loads.

Magnetic Fork Covers - DAGS

Ideal for handling a wide variety of loads. When confronted with an awkward or slippery load like barrels, metal boxes or cages, the lift truck driver can install the covers on the forks in a matter of seconds, improving stability and decreasing the chances of the load slipping off the forks.

Forward Bin Dumpers

Designed to easily accommodate various bin heights, Cascade Forward Bin Dumpers are versatile attachments ideal for handling bins of all sizes. Can easily accommodate various bin heights by manually adjusting the top bin stops.

Stationary Load Inverter

A reliable, economical and efficient means of inverting loads. Allows transfer of product to pallet or slipsheet, freezer spacer removal, damaged pallet exchange or damaged carton replacement. Also provides system for damaged product recovery from bottom of stack.
