

CASCADE PROVIDES OPTIONS

Remanufactured, Factory Certified Used, Rental... It's your choice.

BEFORE

AFTER

OLD BECOMES NEW AGAIN

QUALITY AND VALUE

Save money without sacrificing value by investing in premium Cascade Remanufactured attachments.

The Cascade Remanufacturing Process is the most rigorous in the industry, and every Remanufactured unit undergoes extensive testing to ensure it's been returned to the original factory specifications.

Thoroughly restored to their original condition, every unit is backed by our one year warranty and shipped with detailed installation instructions.

Cascade Reman guarantees buybacks of up to 30% of list price for most standard items in cases where the leasing company will not place a residual on the attachment (excluding Sideshifters, Hose Reels and accessories).

We never cut corners; the Cascade nameplate ensures every Remanufactured unit is practically good as new.

Good as new...

THE REMANUFACTURING PROCESS

Steam Cleaning: All oil, grease and dirt is removed.

Disassembly: Every attachment is completely disassembled, steam cleaned again and visually inspected.

Shotblasting: Component parts are returned to bare metal.

Magnafluxing: Every weld is carefully inspected to reveal possible defects invisible to the naked eye.

Repair & Remanufacturing: All wear parts are repaired or replaced to see that all factory specs are met.

Hydraulics: All hoses are replaced. Cylinders and valves are inspected and tested.

Reassembly & Testing: Components are reassembled, functionally tested and checked for conformance to Cascade engineering standards.

Painting: Each unit receives a final coat of lacquer paint that serves either as a final color, or as a base primer for your own color preference.

Take Cascade for a second spin.

Dependability you've come to know from the world leader in lift truck attachments.

RECOGNIZING THE VALUE OF INVESTING IN PRE-OWNED EQUIPMENT.

With Cascade Certified Used attachments, you are assured Cascade quality at a price you can afford.

Cascade Service And Repairs

- We service and repair Cascade attachments.
- All repairs performed with Genuine Cascade Parts by our trained professional technicians.
- Please have model and serial number ready.

Whatever the application, we can handle it.

Whatever your needs, Cascade provide options...

A wide range of attachments available for short and long-term rental or Rent-to-Own.

RENT OR RENT-TO-OWN

Cascade offers a wide range of rental solutions for customer convenience*. Whether you need a short-term rental for seasonal business fluctuations or a long-term lease so you don't have to tie up capital in purchasing the attachment.

Or perhaps you want to test the equipment in a specific application before making a purchase commitment while still building equity during the rental period.

With a dedicated fleet of Cascade products in stock, we can support whatever length of time the attachment is needed.

Our fleet is well-maintained and regularly updated with the newest equipment so you only get the best and most current attachments.

Customized options are available with long-term rental contracts.

**Attachments rented to Cascade dealer network only.*
